

MATERI I TENSES

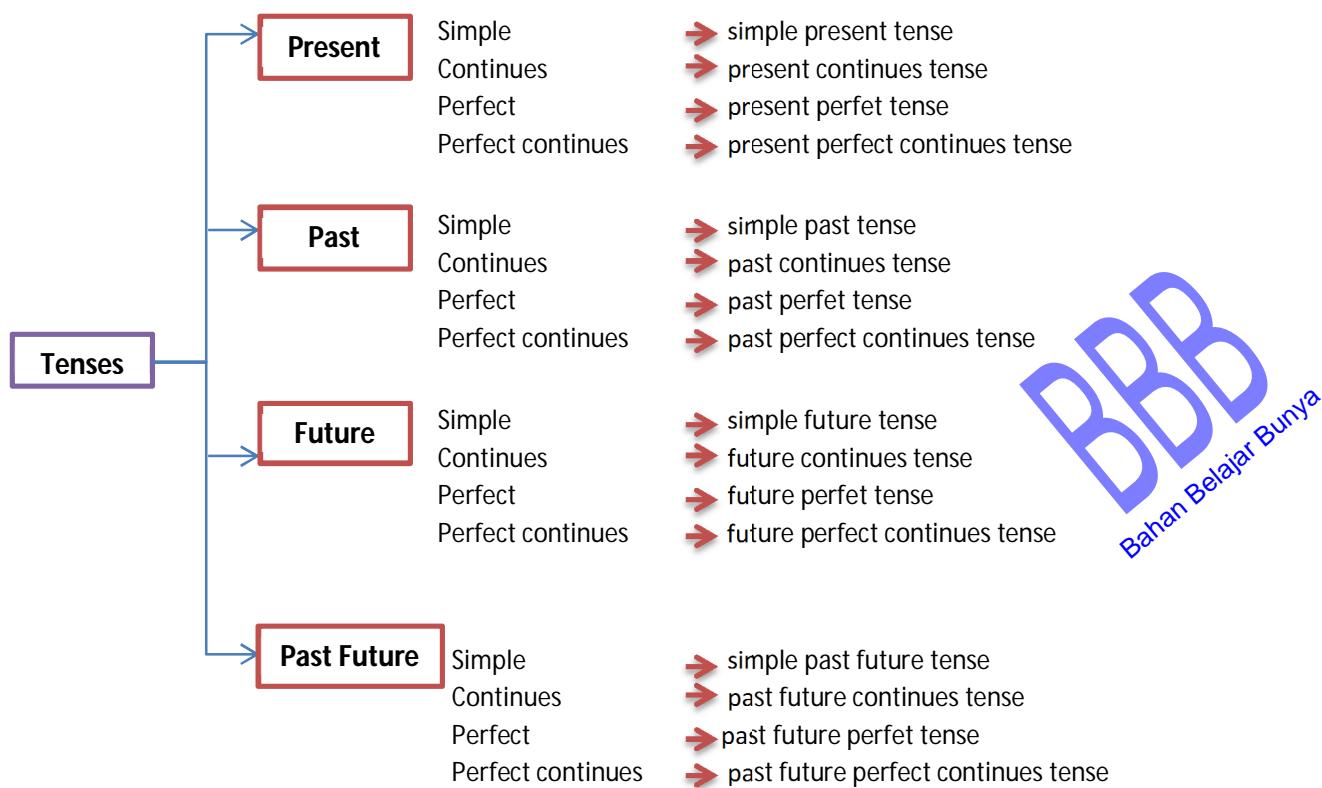

Jurangmangu, kami datang...!!

Tenses merupakan perubahan kata kerja dalam kalimat Bahasa Inggris yang menyatakan perbedaan waktu dan sifat kegiatan atau kejadian.

Untuk dapat mengetahui dan memahami bentuk, perbedaan bentuk, dan kegunaan tenses, yang perlu dipahami terlebih dahulu adalah :

1. Pembagian Tenses

Tenses secara garis besar dibagi menjadi empat bagian yaitu present, past , future, dan past future. Masing-masing bagian itu dibagi lagi menjadi empat yaitu simple, continues, perfect, dan perfect continues. Maka seluruh jenis tenses jumlahnya ada 16. Perhatikan bagan di bawah ini:

2. Perbedaan rumus

Pertama, perhatikan terlebih dahulu pola dasar yang membedakan antara simple, continues, perfect, dan perfect continues. Ciri-ciri yang menjadi pembeda tersebut adalah sebagai berikut :

- Simple selalu memiliki **Verb (V₁/V₂)**, tidak ada to be ataupun to have
- Continues selalu memiliki **be (is, am, are, was, were)** dan **V-ing**
- Perfect selalu memiliki unsur **to have (have, has, had)**
- Perfect continues tense selalu memiliki unsur **to have (have, has, had) + been + V-ing**

Setelah mengetahui perbedaan antara 4 bentuk di atas, perlu diketahui bagian mana yang akan berubah jika dipengaruhi bentuk present, past, future dan past future, yaitu sebagai berikut

- Simple  S + V
- Continues  S + be + V-ing
- Perfect  S + have + V₃
- Perfect continues  S + have + been + V-ing

a. Present

Ciri dari present yaitu : **kata kerja dalam bentuk pertama**, maka semua kata yang digaris bawahi di atas harus dalam bentuk pertama. Khusus untuk bentuk present ini, jika subjek berupa orang ketiga tunggal, Verb pada bentuk simple tense ditambah -s/-es dan have pada bentuk perfect dan perfect continues tense berubah menjadi has

b. Past

Ciri pada past yaitu **kata kerja pada bentuk kedua**, maka semua kata yang digaris bawahi harus dalam bentuk kedua

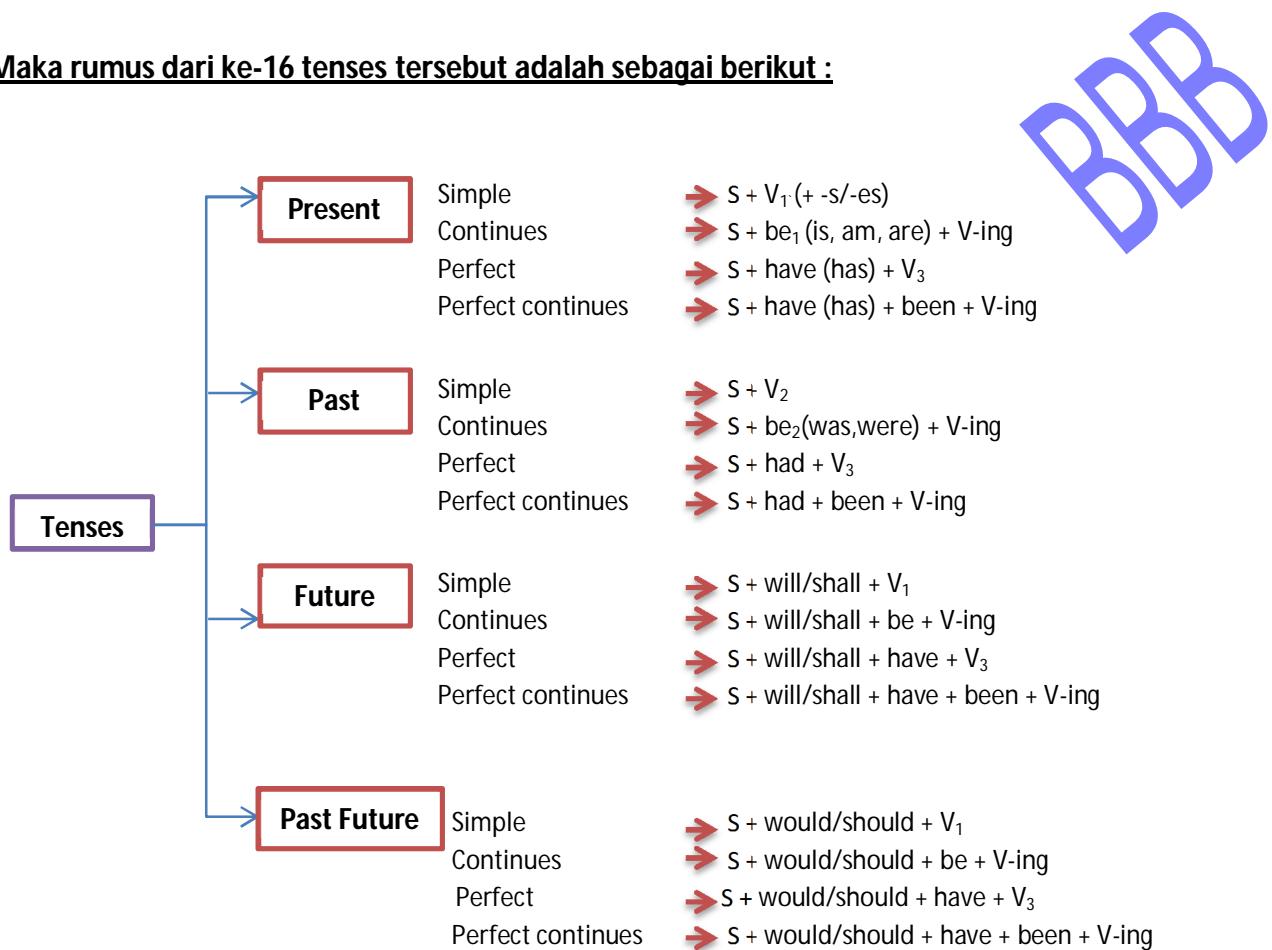

c. Future

Ciri dari future yaitu : **memiliki modal will (be₁going to) atau shall**. Maka modal tersebut diletakkan sebelum kata yang digaris bawahi tersebut. Perlu diingat bahwa modal selalu diikuti bentuk pertama

d. Past future

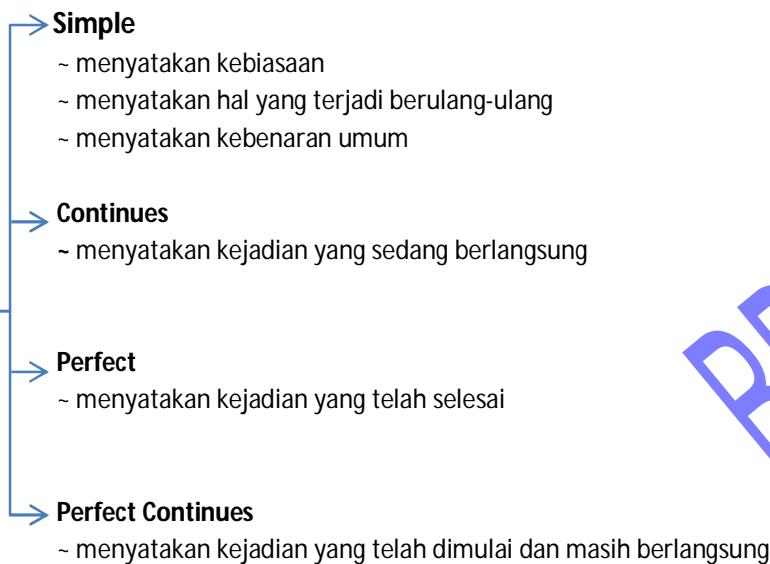

Ciri dari past future yaitu : **memiliki modal would (be₁going to) atau should**. Maka modal tersebut diletakkan sebelum kata yang digaris bawahi

Maka rumus dari ke-16 tenses tersebut adalah sebagai berikut :

3. Pengertian dan fungsi

- 1. **Present**
Masa sekarang
- 2. **Past**
Masa lampau
- 3. **Future**
Masa depan
- 4. **Past future**
Akan terjadi di masa lampau

Setelah memahami jenis, perbedaan bentuk, dan kegunaan di atas, perlu diperhatikan hal-hal penting yang merupakan kunci dalam menyelesaikan soal yang berkaitan dengan tenses. Hal-hal tersebut antara lain:

1. keterangan waktu

Beberapa soal yang berhubungan dengan tenses dapat diselesaikan dengan melihat keterangan waktu yang digunakan dalam soal tersebut, yaitu antara lain

	Present	Past	Future	Past Future
Simple	Usually, regularly, sometimes, never, often, everyday, every, week, once habitually, a week, frequently	Yesterday, last..., this morning, ...before, ...ago, just now	Tomorrow, the day after tomorrow, next..., this morning...	The following day, the next day, the coming ...
Continues	Now, at this moment, right now, today, this year	At the moment, at the time, at ... o'clock yesterday	At this time tomorrow, at ... o'clock tomorrow	At ... o'clock the following day, at that time the next day
perfect	Since..., for..., already, just, yet, all the day, ever, never	For..., since ..., by ..., before ..., after ...,	By next ..., by the end of ..., by then, for	By the following, by the end of ... last ...
Perfect continues				

Catatan:

- Keterangan waktu antara bentuk *perfect* dan *perfect continues tense* umumnya sama, sehingga untuk membedakannya (dalam menyelesaikan soal) perlu diperhatikan konteks kalimat yang menyatakan fungsi, yaitu apakah kejadian tersebut telah selesai atau masih berlangsung
- Keterangan waktu *perfect* dan *perfect continues* pada present dan past hampir sama. Untuk membedakannya perlu diketahui keterangan waktu lain yang menyatakan apakah kalimat tersebut menggunakan bentuk present atau past

- Penggunaan present continues tense juga bisa ditandai oleh adanya kalimat perintah seperti *Look! Listen ! dan hear !*

2. Konjungsi

Jika kalimat soal merupakan gabungan dari klausa-klausa dengan tenses yang berbeda, maka konjungsi yang terdapat dalam soal itu dapat dijadikan ciri untuk menentukan bentuk tenses yang diminta oleh soal. Dalam hal ini perlu diketahui bahwa jika dua klausa memiliki tenses seimbang (present-present atau past-past) dapat digabung dengan **while**, **when**, **before**, dan **after**. Sementara **since** digunakan untuk menggabungkan present perfect dengan simple past. Untuk lebih jelasnya, perhatikan pola penggabungan klausa dengan menggunakan konjungsi-konjungsi tersebut

While

Rumus : Simple + **while** + continues

Dari rumus tersebut dapat disimpulkan bahwa jika klausa pertama berbentuk simple tense (baik present maupun past), klausa kedua harus berupa continues tense dengan syarat antara klausa pertama dan kedua tersebut harus seimbang yaitu present-present atau past-past

Contoh :

- He waits for a long time **while** she is taking a bath
- She moved **while** I was going out of town

When

Rumus : Simple + **when** + simple/continues/perfect/perfect continues

Atau

simple/continues/perfect/perfect continues + **when** + simple

Contoh :

- Anton is surprised when I say that
- Ardan had just finished his lunch when we chatted

Before dan after

Rumus : perfect/perfect continues + **before** + simple/continues

simple/continues + **after** + perfect/perfect continues

Since

Rumus : Present perfect/perfect continues + **since** + simple past

Contoh :

- She was lived in Jakarta since he entered the university
- Dony has been standing outside since his girl friend slam the door

3. Konteks kalimat sebelum atau sesudahnya

Langkah ini berlaku jika soal terdiri dari dua kalimat yang umumnya beruoia percakapan. Maka tenses yang dinyatakan harus sesuai dengan tenses pada kalimat lain dalam soal tersebut

MATERI II

PASSIVE "Bunya" VOICE

Passive voice merupakan kalimat yang subjeknya dikenai tindakan atau perbuatan .

Pola dasar kalimat pasif : **to be + V₃**

Langkah-langkah penyelesaian soal yang berkaitan dengan passive voice adalah :

1. Menentukan rumus yang tepat untuk kalimat pasif tersebut

Dalam menyelesaikan soal passive voice, harus diketahui terlebih dahulu bentuk kalimat pasif yang diminta oleh soal tersebut. Kadang soal meminta ketepatan tenses pada sebuah kalimat pasif, namun kadang soal hanya meminta bentuk pasif tertentu (yang merupakan bagian dari suatu kalimat) tanpa begitu memperhatikan tenses keseluruhan kalimat.

a. Rumus kalimat tenses berdasarkan tensesnya

Telah disebutkan di atas bahwa pola dasar kalimat pasif adalah **to be + V₃**. Pola dasar kalimat ini dapat mengalami modifikasi dipengaruhi oleh bentuk tenses. Untuk memahami pola-pola kalimat pasif berdasar tensesnya, yang perlu diingat adalah :

- **Simple** → rumus dasar pasif tidak mendapatkan tambahan
- **Continues** → pola dasar pasif mendapat tambahan being
- **Perfect** → pola dasar dengan tambahan **to have** sehingga to be dalam bentuk ketiga (**been**)
- **Perfect Continues** → pola pasif perfect mendapat tambahan being

DBB

Maka bentuk formulanya :

Simple → **to be + V₃**

Continues → **to be + being + V₃**

Perfect → **have + been + V₃**

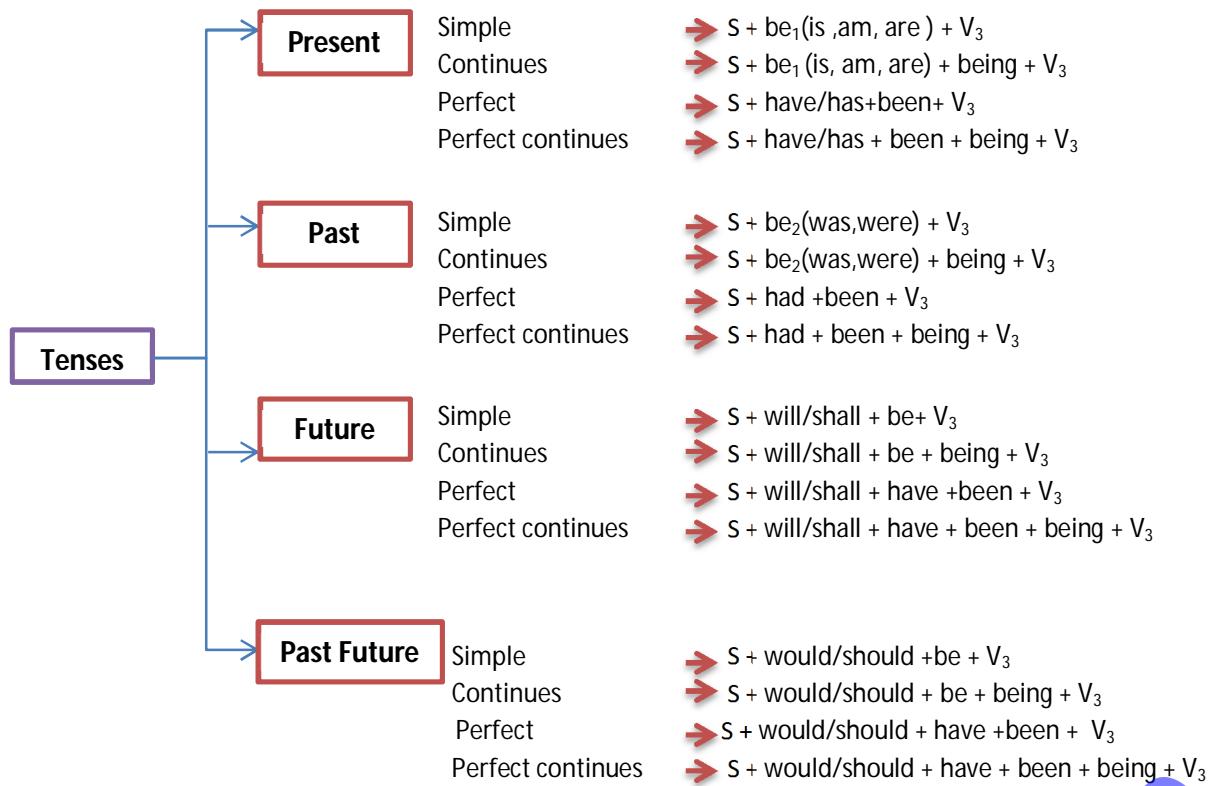

Perfect Continues → **have + been + being + V₃**

Pada dasarnya unsur yang digaris bawahi pada bentuk formula di atas merupakan pembeda pola pasif antara bentuk simple, continues, perfect, dan perfect continues

Sementara itu, ciri yang membedakan pola berdasar pembagian waktu **present, past, future** dan **past future** sama dengan ciri umum tenses, yaitu :

1. pada present, kata kerja/kata bantu dalam bentuk pertama
2. pada past, kata kerja/kata bantu dalam bentuk kedua
3. future memiliki modal will/shall
4. past future memiliki modal would

Maka keseluruhan pola kalimat pasif berdasar tensesnya adalah sebagai berikut :

a. Rumus kalimat pasif yang memiliki modal atau modal perfect

Pola kalimat pasif yang menggunakan modal pada intinya sama dengan pola future dan past future, yaitu :

- **S + modal + be + V₃**
- **S + modal + have + been +V₃**

Contoh :

- Kalimat aktif : They can help us if we want
- Kalimat pasif : we can be helped (by them) if we want
- Kalimat aktif : You must have cheated me in the game
- Kalimat pasif : I must have been cheated (by you) in the game

b. Bentuk pasif dari *to infinitive* dan gerund

Pola kalimat pasif dari bentuk to infinitive sama dengan pola pasif untuk gerund, yaitu : **to + be + V₃**

Contoh :

- Kalimat aktif : He continues to mock her
- Kalimat pasif : she continues to be mocked (by him)
- Kalimat aktif : she advice me taking the job
- Kalimat pasif : she advices the job to be taken (by me)

c. Rumus kalimat yang pasif yang berbentuk pertanyaan

Pola kalimat pasif untuk bentuk interrogative atau pertanyaan menyesuaikan bentuk pertanyaannya. Perlu diingat bahwa dalam kalimat pertanyaan dikenal dengan istilah yes-no question, yaitu : pertanyaan yang jawabannya "yes" atau "no" dan wh-question, yaitu : pertanyaan yang jawabannya berupa informasi. Yes-no question menggunakan modal dan kata bantu sebagai kata Tanya, sedangkan wh-question menggunakan question word seperti who, which, when, why, where, whom, what, which dan how.

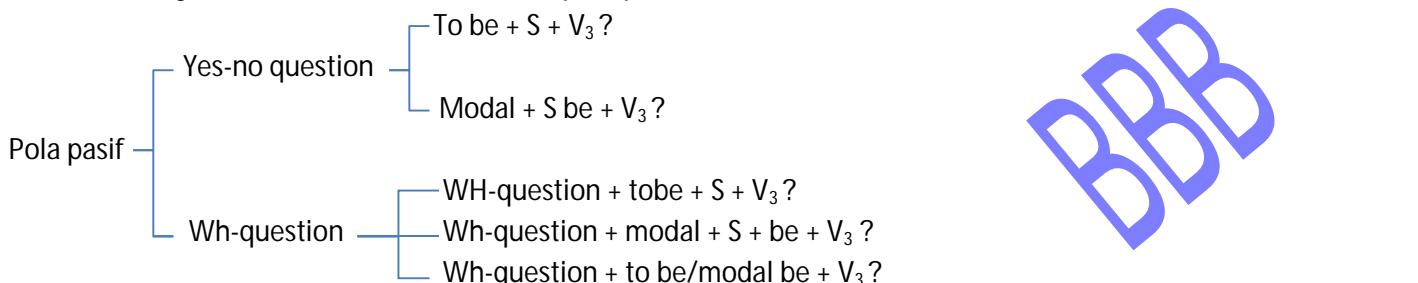

Terdapat 2 pola kalimat pasif yang berbeda untuk bentuk yes-no question, yaitu :

1. Jika kalimat tersebut tidak memiliki modal
2. Jika kalimat tersebut memiliki modal

Sementara itu untuk bentuk wh-question terdapat 3 pola kalimat pasif yang berbeda,yaitu :

1. Jika kalimat tersebut tidak memiliki modal
2. Jika kalimat tersebut memiliki modal
3. Jika yang ditanyakan adalah subjek kalimat tersebut

Perhatikan bagan berikut untuk membedakan pola-pola tersebut

BBB

1. Menentukan subjek kalimat pasif

Langkah selanjutnya adalah menentukan subjek untuk kalimat pasif, sehingga diketahui apakah subjek itu tunggal atau jamak. Hal ini penting untuk menentukan to be yang akan digunakan dalam bentuk pasif. Perhatikan cara menentukan subjek kalimat pasif di bawah ini

- a. *Objek pada sebuah kalimat aktif* akan menjadi subjek jika kalimat tersebut diubah ke dalam bentuk pasif
Contoh :
Kalimat aktif : Ronaldo kicked the ball strongly
Kalimat pasif : The ball was kicked strongly by Ronaldo
- b. Jika kalimat aktif memiliki dua objek (objek langsung dan objek tak langsung), maka objek langsung akan menjadi subjek untuk kalimat pasifnya.
Contoh :
Kalimat aktif : The girl gives him everything
Kalimat pasif : he is given everything by the girl
- c. Jika kalimat aktifnya menggunakan subjek berupa people, everyone, dan everybody yang diikuti that clause, maka subjek kalimat pasifnya berupa impersonal 'it'
Contoh :
Kalimat aktif : People say that the young lady is an idol
Kalimat pasif : It is said that the young lady is an idol

MATERI III

CONDITIONAL & SUBJUNCTIVE

Pada dasarnya kalimat conditional dan subjunctive sama-sama menyatakan pengandaian. Kalimat conditional memiliki dua klausa yaitu main clause dan if clause. Sementara subjunctive memiliki beberapa bentuk berbeda dimana kata-kata yang bisa digunakan antara lain : wish, as if/as though, if only, dan would rather. Soal-soal yang berhubungan dengan conditional sentence maupun subjunctive umumnya hanya menanyakan kelengkapan bentuk kalimat sesuai pola ataupun menanyakan fakta ataupun kenyataan dari pengandaian. Maka dari itu untuk menyelesaikan soal-soal tersebut, harus diketahui pola kalimat dan pola faktanya.

Di bawah ini adalah tabel hubungan tenses antara bentuk dan fakta conditional dan subjunctive

Bentuk conditional tenses

Tipe	Rumus	Fakta
I	If + simple present tense, future tenses	Future
II	If + simple past tense, past future tense	Present
III	If + past perfect tense, past future tense	Past

Catatan:

- klausa-klausa pada fakta biasanya dihubungkan oleh konjungsi *because and so*. Susunan if clause dan main clause tidak mempengaruhi arti, namun mempengaruhi penggunaan konjungsi tersebut.

Contoh :

Conditional : if I had told him , he would not go there

fakta : I did not tell him, **so** he went there

Because I did not tell him, he went there

- Conditional sentence tanpa if bisa digunakan untuk tipe kedua dan ketiga, pola if clause nya menjadi :

Tipe II : **were** + S + Complement

Tipe III : **had** + S + V₃

Bentuk subjunctive:

Tipe	Rumus	Fakta
Present	S + wish + (that) + S + V ₂	Present
	S + V ₁ + as if/as though + S + had + v ₂	
	If only + S + V ₂	
	I would rather + S + V ₂	
Past	S + wish + (that) + S + had + V ₃	Past
	S + V ₂ + as if/as though + S + V ₃	
	If only + S + had + V ₃	
	I would rather + S + had + V ₃	

Hal yang perlu diperhatikan :

1. Fakta dari conditional dan subjunctive **berlawanan** dengan pengandaian positif maka faktanya negative dan sebaliknya
2. Untuk conditional sentence tipe II dan subjunctive tipe present, tidak digunakan kata bantu was, walaupun subjeknya tunggal. Kata bantu yang dipakai hanya **were**

MATERI VI

ELLIPSIS

Ellipsis merupakan pemendekan gabungan dua kalimat atau lebih dengan cara menghilangkan bagian dari kalimat yang memiliki persamaan arti. Sehingga tidak terjadi pengulangan kata dalam satu kalimat

Bentuk kalimat ellip

Pemendekan kalimat atau ellipsis ini dapat dilakukan dengan beberapa cara, antara lain dengan menggunakan kata hubung seperti di bawah ini

1). So/too

So dan too dipakai untuk memendekkan dua kalimat positif dimana dua subjek melakukan hal yang sama (sama-sama melakukan sesuatu) Pola kalimatnya adalah sebagai berikut :

Kalimat (+), and (so + aux + S)
kalimat (+), and (S + aux + too)

2). Either / neither

Either/neither penggunaannya sama dengan so dan too hanya saja dipakai untuk kalimat negative (subjek sama-sama tidak melakukan sesuatu). Polanya adalah sebagai berikut

Kalimat (-), and (neither + aux + S)
Kalimat (+), and (S + aux + not + ...)

3). and, or, but, nor (dan, atau, tapi juga tidak)

and, or, but, nor digunakan untuk menggabungkan dua unsur yang kedudukannya setara, di mana polanya adalah sebagai berikut :

... + and/or/but/nor + ...

4). but, whereas, while

But, whereas, while digunakan untuk menggabungkan dua kalimat yang bertentangan, yang satu negative dan yang satu positif. Polanya :

Kalimat (-) + but, whereas + while + S + aux
Kalimat (+) + but, whereas + while + S + aux + not

Selain and, or, but, nor, dua unsur setara juga dapat digabungkan dengan:

- **both ... and ...**
- **not only ... but also ...**
- **either ... or ...**
- **neither ... nor**
- **whether ... or ...**

Hal yang paling penting dalam membentuk kalimat ellip dan menyelesaikan soal ellipsis :

MATERI IX

DERIVATIVES

Derivative (kata jadian) yaitu kata yang mengalami perubahan jenis karena mendapat imbuhan tertentu yang disebut derivational affix.

Dalam menyelesaikan soal-soal derivatives, langkah-langkah yang harus dilakukan adalah :

1. Menentukan jenis kata apa yang diminta oleh soal
2. Menentukan bentuk kata jadian yang tepat (sesuai dengan jenis kata yang diminta)

Cara menentukan jenis kata dan bentuk kata tersebut adalah sebagai berikut :

1. Menentukan jenis kata

Jenis kata yang tepat untuk menyelesaikan soal-soal derivatives dapat diketahui dari posisinya :

- jika jenis kata yang ditanyakan adalah kata sebelum cerb/tobe/modal, maka kata yang ditanyakan tersebut adalah noun
- jika jenis kata yang ditanyakan adalah kata setelah verb maka ada dua kemungkinan : jika kata kerja tersebut membutuhkan objek, maka kata kerja tersebut diikuti oleh noun, namun bila kata kerja tersebut tidak membutuhkan objek kata tersebut diikuti oleh adverb
- Determiner dan preposisi (selain to) selalu diikuti oleh noun atau unsur yang berkedudukan sebagai noun, seperti noun phrase dengan pola seperti di atas. Maka noun phrase tersebut bisa berupa adjective +noun, noun + noun (di mana noun pertama berfungsi untuk menjelaskan noun kedua) atau adverb + adjective + noun
- Preposisi to, modal, dan kata bantu negative (don't, didn't) selalu diikuti V₁ sementara tobe dan linking verb selalu diikuti oleh adjective/V-ing/V₃. Namun karena adverb merupakan kata yang sangat fleksibel, maka ia bisa terletak di antara kata bantu dan kata kerja utama
- Have, has, dan had hanya diikuti oleh bentuk V₃ atau tobe bentuk ke-3 yaitu been

Untuk lebih jelasnya, perhatikan pola berikut :

- | | |
|--------------------------|--|
| 1. Noun | + verb + tobe (is,am,are,was,were) /modal |
| 2. verb transitif | + noun |
| 3. verb intrnsitif | + adverb |
| 4. determiner/preposisi | + adjective + noun |
| 5. determiner/preposisi | + noun + noun |
| 6. determiner/preposisi | + noun |
| 7. determiner/preposisi | + adverb + adjective + noun |
| 8. modal/to/don't/didn't | + V ₁ |
| 9. modal/to/don't/didn't | + adverb + V ₁ |
| 10. tobe/linking verb | + adjective/V-ing /V ₃ |
| 11. tobe/linking verb | + adverb + adjective/V-ing /V ₃ |
| 12. have/has/had | + V ₃ /been |

1. Menentukan bentuk kata jadian (derivatives)

a. Noun

Bentuk noun derivatives umumnya mendapatkan imbuhan : **-ment, -ance, -ence, -ion, -tion, -ation, -t, -th, -er, -or, -ure, -ture, -ature, -y, -ary, -ery, -ist, -ant, -ent, -ism, -ness, -ty, -ity, -ship, -hood**

Contoh : improvement, allowance, evaluation, complaint, conductor, betrayal, departure, recovery, marriage, tourist, capitalism, happiness, popularity, leadership, childhood

b. Verb

kata yang mendapat awalan en- atau mendapat akhiran **-en, -ze/-ize, -fy/-ify** adalah kata kerja jadian

Contoh : enjoy, endanger, blacken, symbolize, simplify

c. adjective

Adjective derivatives berupa kata yang mendapat akhiran **-y, -less, -ful, -ic, -tic, -etic, -atic, -able, -ible, -en, -ane, -ant, -al, -ual, -ial, -ical, -ous, -ive, -tive, -ative, -ary, -tory**

Contoh : cloudy, careless, successful, heroic, responsible, wooden, classical, dangerous, imaginative, introductory

d. Adverb

Kata keterangan bentuka dibentuk oleh kata sifat yang mendapat akhiran **-ly**

Contoh : slowly, successfully, carelessly, luckily

Catatan:

- beberapa kata benda dan kata kerja memiliki perbedaan khusus, yaitu dalam pelafalan sementara bentuknya hampir sama . Kata-kata tersebut antara lain:

noun diakhiri "s" atau "z" → verb diakhiri "d"

applause	→	applaud
success	→	succeed
offense	→	offend
defense	→	defend
pretense	→	pretend
process	→	proceed

noun diakhiri "f" → verb diakhiri "v"

belief	→	believe
relief	→	relieve
proof	→	prove

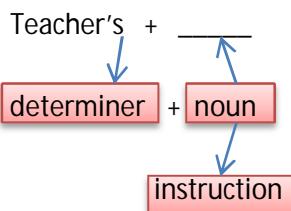

- ingat bahwa kata kerja bisa mengalami penambahan -ed pada saat participle, dan penambahan -ing pada present participle
- Dalam pilihan jawaban bisa saja terdapat lebih dari satu bentuk derivatives yang bentuk dan jenis katanya sesuai dengan permintaan soal. Dalam kasus seperti ini harus ditentukan derivatives yang memiliki makna yang sesuai dengan konteks kalimat

MATERI X CAUSATIVE

Causative merupakan kalimat yang digunakan untuk menunjukkan bahwa seseorang menyuruh orang lain untuk melakukan sesuatu tindakan atau perbuatan

Dalam menyelesaikan soal causative, hal pokok yang harus diketahui adalah:

1. Causative word (kata kerja causative) digolongkan dalam dua golongan, yaitu :
 - a. Golongan **have** meliputi **have, let, make**
 - b. Golongan **get** meliputi **get, ask, tell**
2. Berdasarkan objeknya, causative dibagi menjadi dua macam, yaitu :
 - a. Active causative

Active causative adalah kalimat causative yang objeknya aktif. Pola antara active causative yang menggunakan have dan yang menggunakan get berbeda, seperti di bawah ini:

Berdasarkan pola di atas, jelas bahwa jika causative word adalah golongan have maka kata kerja setelah objek adalah V_1 , sementara jika causative word adalah golongan get, kata kerja setelah objek adalah **to V_1**

3. Passive causative

Passive causative adalah kalimat causative yang objeknya pasif. Untuk passive hanya ada satu pola, yaitu:

S + have/get + Object pasif + V₃

Maka jika suatu kalimat causative merupakan passive causative baik dengan causative golongan have maupun golongan get, kata kerja setelah objek pasti adalah V_3

Sementara itu, untuk membedakan apakah kalimat causative dalam soal merupakan causative active atau passive, perlu diperhatikan bahwa :

Verb bentuk pertama pada aktif causative bisa diikuti objek, sementara verb bentuk ketiga pada pasif causative tidak diikuti objek

Contoh:

I have my sister water my plants → active causative
V₁ Objek

I have my plants watered (by my sister) → passive causative
V₃
